Press of
F. W. SONNEBORN,
8 Warren Street,
New York.

PREFACE.

In the preparation of this Edition of *Beecher's Dental Directory*, the utmost care has been taken in revising and correcting the lists of the different States, and with very few exceptions they are believed to be as nearly correct as it is possible to make them.

The list of *Manufacturers and Dealers* will be found very accurate and complete.

Sincere thanks are hereby tendered to all those who have so kindly furnished valuable information.

M. P. BEECHER.

New York, January 25th, 1888.

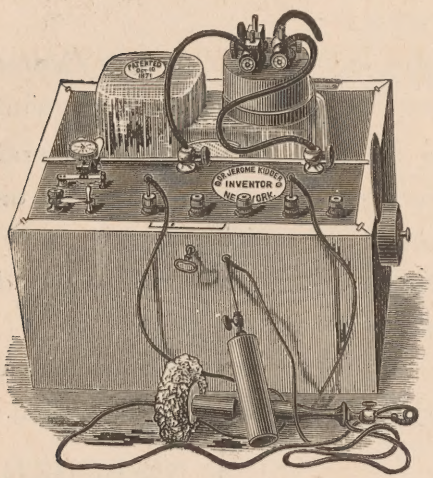

EXTRACTING TEETH

—BY—

ELECTRICITY.

NO PAIN. NO UNPLEASANTNESS.

Highest awards from American Institute for thirteen consecutive years, and wherever exhibited in competition.

THE

No. 5 Tip Battery Apparatus.

SHOWN WITHOUT LID.

(See Cut) is the only perfect apparatus for dental use. It does not require constant attention, and is operated by a form of battery that will remain active for months without replenishing the solution, and the annoyance and inconvenience due to crystalization in the cell is entirely obviated in this form of battery.

GOLD MEDAL.

From American Institute in 1875, and the highest awards from 1872 to 1885, inclusive, for the Best Apparatus either here or abroad.

BRONZE MEDAL

And First Premium at Centennial Exhibition, 1876.

HIGHEST AWARD SILVER MEDAL

From Charleston, S. C., exhibition, Fall of 1882.

SILVER MEDALS

From Cincinnati Industrial Exposition, Fall of 1881, 1882 and 1883.

BRONZE MEDAL

From Southern Exposition, at Louisville, Ky., Fall of 1883.

WE MANUFACTURE A COMPLETE LINE of BATTERIES & INSTRUMENTS.

To distinguish the Genuine from the Spurious, send for 84 page catalogue. Address

Jerome Kidder Manufacturing Co.,

820 BROADWAY, NEW YORK.

More decided improvement is noticeable in the productions of the past year from the *Wilmington Co.*, than those of any other manufacturers. By the application of scientific principles in their laboratory they have succeeded in accomplishing such results as are both surprising and pleasing to those having occasion to use Porcelain Teeth.

Ask your nearest dealer to show you a set of the **NEW WILMINGTON TEETH,** or send $1.00 for a sample set to

The Wilmington Dental M'f'g. Co., Wilmington, Del.

The Countersunk Tooth Crown.

PATENTED IN ENGLAND AND AMERICA.

The new style Countersunk Tooth Crowns are everywhere received as affording enlarged opportunity in prosthetic dentistry. When properly mounted on celluloid or pink vulcanite, they fairly rival continuous-gum work in naturalness of appearance, without the objectionable weight of the latter.

Their close conformity in contour to the natural organs makes them much more acceptable to the tongue than teeth backed in the ordinary manner; renders articulation easier and more distinct, and prevents disclosure of artificiality when the mouth is opened. In addition to these manifest and great advantages, these new Crowns allow of greater facility of adaptation to the maxillary ridge, and when completed form the strongest denture that has yet been made on a plastic base.

AKRON

Dental Rubber.

THE MATERIALS OF WHICH THIS RUBBER IS COMPOSED, ARE PREPARED BY NEW PROCESSES WHICH INSURE

ABSOLUTE PURITY,

RESULTING IN A PRODUCT OF WONDERFUL

Density, Firmness and Strength.

It is especially designed to meet the requirements of those who seek to produce the most perfect and artistic work.

It is exceedingly tough and light, and takes a beautiful polish.

Plates may be made very thin without danger of splitting or crumbling away about the edges.

It can be used with the best results for making partial lower dentures, an advantage which no other rubber possesses.

It has the unqualified approbation and endorsement of the profession everywhere, and never fails to give satisfaction.

It will cost you nothing to try it

SEND FOR SAMPLES AND PRICES.

IMPERIAL

DENTAL  RUBBER

No. 1, Light Orange, - $2.25 per lb.
No. 2, Medium Orange, - $2.25 per lb.
No. 3, Dark Orange, - $2.75 per lb.
No. 4, Maroon Colored, - $3.00 per lb.
Herakles Rubber, warranted absolutely free from all mercurial compositions, price, ***$3.50 per lb.***
Pink Colored, - $5.00 per lb.
Nubian Black, - $3.00 per lb.
Ordinary Black, - $2.25 per lb.
White, - - - $4.00 per lb.
Gutta Percha for base plate, - $2.25 per lb.
Hard and Soft Gutta Percha Filling, $1.00 per oz.

The above Rubbers are Positively the Best.

For Texture, Beautiful Finish, Strength and Elasticity they are Unexcelled.

The "Nubian Black" is Guaranteed to vulcanize a JET BLACK Color.

DR. L. P. HASKELL,

Professor of Prosthetic Dentistry, Chicago College of Dental Surgery, writes:

CHICAGO, September 15th, 1885.

Having used a pound of your "*Imperial Maroon*" Rubber, I consider it the best thing that has yet been made, for the reason, that while it is tough and elastic, *it contains no mercury.*

It is no longer necessary to use the Black Rubber, which is objectionable on account of the color and the difficulty of vulcanizing without becoming porous. *The Maroon and Pink* we shall use exclusively at the College.

Samples forwarded on application. Address,

HENRY JUNGE, 335 Broadway, New York.

FOR SALE BY

THE RYNEAR CROWN.

(Patented Sept. 16th, 1884.)

1st Lower Bis. Upper Bis. Lower Molar. Up. Molar.

☞ SIMPLE—EFFECTIVE—BEAUTIFUL.

We are prepared to furnish the Dental Profession with a metallic Crown for molar and bicuspid teeth made from one unbroken piece of pure gold. The cusps or grinding surfaces are exact counterparts of the human teeth, while the surrounding portion or sides conform to their necks. Different sizes of each crown are made, enabling the selection of one which will so nearly fit the affected tooth as to require but a slight compression of its sides to perfect it.

The following advantages are claimed for these Seamless Crowns:

FIRST.—They are formed from an unbroken piece of pure gold, *no solder being used*, thus enabling a perfect adaptation of all its parts.

SECOND.—They relieve the Dentist of the necessity of constructing them, thereby saving time and trouble to both the operator and the patient.

THIRD.—The operation is more perfect in every detail and presents a better appearance when completed.

FOURTH.—It places in the reach of all a superior class of Dental work, which heretofore has been confined to a limited few.

That the Rynear Crown is SIMPLE, EFFECTIVE and BEAUTIFUL, it is only necessary to give it one trial to convince the most sceptical.

DIAGRAM OF MEASUREMENT, DIRECTIONS FOR USING THE RYNEAR CROWN, PRICE LIST AND CIRCULAR, WITH REFERENCES FROM LEADING DENTISTS WILL BE SENT FREE,

All Communications will Receive Prompt Attention

ADDRESS,

THE RYNEAR CO., 1288 Broadway,

NEW YORK CITY, N. Y.

NICHOL'S ⚜ CARBOLIC ⚜ DENTIFRICE.

DURING the last three years we have sent samples of our Dentifrice to some of the leading members of the dental profession in every State in the Union, inviting criticism and soliciting any suggestion which in their opinion would tend in the least to improve it. To which a generous response has been received. Opinions and suggestions have been given with that freedom, frankness, liberality and candor, which particularly characterize the profession. Pharmacists and physicians have likewise been consulted. Through these sources we have obtained the information which has enabled us during the last year to so revise our formulas as to give to the profession, and through them to the public, a strictly pure, safe, efficacious and in every particular reliable Dentifrice, incapable of injury to the teeth or tissues of the mouth.

Of this Dentifrice we now prepare two kinds, both *Carbolized by Spray of Pure Re-Distilled Phenol.* No. 1 is saponaceous, No. 2 is not; otherwise they are alike. Those who prefer a saponaceous powder will find in No 1 an elegant preparation. No. 2, like No. 1, is a great Disinfectant and Deodorizer. It is also very agreeable to the taste. Both of these powders impart to the mouth and breath a prolonged sense of coolness and cleanliness experienced by the use of no other Dentifrice. Put up in beautiful enamelled cans, also in bottles.

In one pound cans	per lb.	$1.00
In half pound cans	"	1.04
In quarter pound cans	"	1.08

Special rates for ten to twenty pound cans.

In bottles, exact size and style of cut, sprinkle tops, nickel plated, per gross,	$24.00; per doz.	$2.00
With fancy corks . "	19.80; "	1.65

Labels with blank address will be sent with each dozen. Plainly written addresses accompanying order for ONE-HALF GROSS will be neatly printed on label.

One writes: "Send half gross of No. 1, with sprinkle tops. My patients are delighted with it. Its sale increases, and my business in proportion. I can ask for no better advertisement. You have my address."

"A WANT SUPPLIED."

The tuft of stiff Unbleached Bristles will clean any cavity, and the clearing space entirely removes all trouble of breaking down of Bristles.

Simply hung up after use it will become perfectly dry.

See page 4.

Every Dentist who does Plate Work will appreciate the advantages of this Brush in the hands of the patient.

IT IS A REAL NECESSITY.

Special inducements to Dentists. If objection is made to selling Brushes see that the patients get them at your Druggist.

BRISTLES WARRANTED SECURE.

EACH BRUSH HANDSOMELY BOXED.

921 Ridge Ave., Philadelphia, Pa.

PARSONS' EUREKA SILVER ALLOY.

I am manufacturing and offering for sale a superior Amalgam or Silver Alloy, which has the following properties: It is a quick setting alloy, has great edge strength, therefore a superior alloy for mounting artificial crowns or natural roots. Fillings may be finished and polished in fifteen or twenty minutes after inserting, and retain their polish and silvery whiteness remarkably.

It does not spheroid or bulge like many alloys of inferior grade.

If you wish to use one of the nicest working alloys in the market, send for ½ oz., **$1.50**, 1 oz., **$3.00**, or 4 oz. for **$10.00.**

Send your address direct to manufacturer and receive a sample package free of charge.

Let the profession give my alloy a fair and impartial trial and I feel confident I shall receive a liberal amount of patronage. Respectfully,

Dr. H. W. PARSONS,
Wamego, Kansas, U. S. A.

The following are a few of the many testimonials received in favor of *Parsons' Eureka Silver Alloy*.

HOUSTON, TEXAS, April 26, 1885.

DR. PARSONS:
Dear Sir:—The Alloy came safely to hand. I am very well pleased with it.
Very respectfully, Dr. S. E. JONES.

ROCHESTER, N. Y., April 13, 1885.

H. W. PARSONS:
My Dear Friend:—The boxes of Amalgam were duly received, and I consider it very nice indeed.
Respectfully yours, Dr. S. G. WOOD.

RICH HILL, MO., Feb. 9, 1886.

DR. H. W. PARSONS:
Dear Dr.:—Yours of 5th inst. at hand, and in reply would say. your Eureka Alloy is the best I ever used.
Respectfully, C. E. JONES, D. D. S.

COLUMBIA, MO., March 16, 1886.

DR. H. W. PARSONS:
Dear Sir:—I have used your Eureka Silver Alloy for one year, and am much pleased with it. I find its properties all that you represent them to be. Respectfully, Dr. N. HOCKENSMITH.

BROOKLYN, N. Y., May 3, 1886.

DR. H. W. PARSONS:
Dear Sir:—Your Amalgam came this morning. I have tried it and am very much pleased with it. I have made two sales of it to day and I think that a good deal of it can be sold here. I think you have a formula that cannot be excelled. Yours truly, Dr. C H. MOSELEY.

VAIL BROTHERS, 239 MARKET STREET,
PHILADELPHIA, PA.

LAWRENCE'S AMALGAM.

["THE OLD RELIABLE."]

This Amalgam has received the endorsement of the Profession at large for ***OVER FORTY YEARS,*** which would seem to render any remarks as to its excellence superfluous.

It is never sold in bulk, nor in any other form than in a white Lithographed Envelope, covering a brown one, containing the Amalgam with *Trade Mark* on the lap of each, and both copyrighted.

Beware of counterfeit envelopes and bogus amalgam whether made from so-called analysis or otherwise. The safest way is to purchase ONLY from regular dealers or their agents.

PRICE, THREE DOLLARS PER OUNCE.

The S. S. White Dental Manufacturing Company, is Sole Agent, and communications relating to my Amalgam should be addressed accordingly.

I am, and shall continue to be the ONLY MANUFACTURER.

AMBROSE LAWRENCE, M. D.,
476 COLUMBUS AVENUE, BOSTON, MASS.

ALFRED J. NICKOLDS,

REFINER AND MANUFACTURER OF

Dentists' Chemically Pure 1000 Fine

GOLD FOILS, GOLD PELLETS.

TIN FOIL, ETC.,

238 McDonough Street,

BROOKLYN, N. Y.

Special attention is invited to *Nickolds' Improved Soft Gold Foil* and *prepared Pellets;* pronounced the best article of Gold Foil extant.

WILLIAMS' INSOLUBLE CROWN CEMENT,

An Oxy-Phosphate for Filling Teeth.

For uniformity, strength, durability, density quality, quantity and price, it has no equal.

Large sized packages, each containing one ounce of powder in two colors, and one-half ounce of liquid; also two small vials filled with yellow and gray pigments so that any desired shade may be obtained. Price, $2.50

Small sized packages, one color, Price, $1.50

Over 8000 pkgs. sold during 1885 and hundreds of testimonials received from leading dentists. For sale at nearly all Dental Depots in U.S. Liberal discount to the trade

Manufactured exclusively by DR. G. W. WILLIAMS, Germantown, Phila., Pa.

HARDMAN'S WHITE ALLOY

Takes the place of gold for filling front, or any teeth.

PRICE, $3.00 PER OZ.

Test for Color.—Place a button of Amalgam, that has one surface polished, into a solution of 40 to 60 grs. of sulphuret of Potassa in 1 oz. of water. Let it remain 24 to 48 hours.

Test for Leakage.—Fill a small glass test tube with it, just as you would a cavity in a tooth, and drop it into a bottle containing an alcoholic solution of red aniline.

This Alloy Stands These, and Any Other Tests Deemed Requisite to Perfection.

Manufactured by J. HARDMAN, Muscatine, Iowa.

A LIBERAL DISCOUNT IN QUANTITIES.

Oxychloride of Zinc.

PRICES—Plain Form, one ounce, - - - - - each, $1.00
Cedar Cases, as shown in cut, containing four colors of Powder and one bottle of Liquid, glass stoppered, - - " 2.00
A, White; B, Brown; C, Yellow; D, Bluish.

DR. J. H. SMITH, New Haven, Conn.

THE LEYDEN GOLD CROWN.

Perfection in Gold Crowns at last attained.

The Leyden Gold Crowns are not a patented device, nor are they the result of one man's experience, on the contrary, they are made up according to the suggestions of some of the most practical and experienced members of the dental profession.

The gold used for these crowns is 22 k sufficiently pure to insure against tarnishing, and not too soft to yield to the pressure to which a useful crown is subjected during the act of mastication.

The grinding surfaces are Exact Counterparts of natural Molars and Bicuspids. The cusps are swedged up on Metal dies taken from natural teeth. The band is fitted correct to the root. When both are completed a slight amount of solder unites them. The joint is so accurate that the solder can not be seen.

Models sent to me will have the crown accurately fitted without extra charge. Both upper and lower models should be sent.

Terms, Cash with order.

PRICE.

Molars, $3.00. Bicuspids, $2.50. Central or Lateral Incisors. Porcelain Faced, Each, $3.00.

Address all orders to E. LEYDEN,

1458 Second Avenue, New York.

THE DENTIST'S IDEAL

Laboratory Brush.

PATENTED.

NO PREDECESSORS and NO RIVALS!

Bobe Handle. Ivory Finish. Pure Bristles. Extra Stiff.

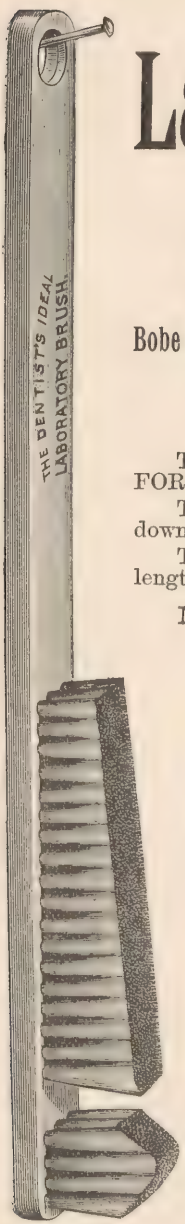

POINTS!

The tuft of stiffest unbleached Okatka Bristles is made FOR WORK, and will thoroughly cleanse any cavity.

The clearing space removes the old trouble of breaking down of bristles.

The face of the Brush cut on an angle brings the greatest length where there is the greatest wear.

NO BRUSH MADE CAN EQUIL IT!

¾ SIZE.

NO TAMPICO!

POPULAR PRICES,

35 Cents Each. **Three for $1.00.**

ELEGANTLY PUP UP IN SINGLE BOXES.

The great success of the **Florence Dental Plate Brush** (the only Brush for cleaning Artificial Teeth) has shown all practical dentists the need of this Brush for laboratory work. The manufacturers offer it at the solicitation of Dr. M. P. Beecher of New York, feeling that its many good points will induce its uiniversal adoption. Sent securely packed by mail.

Write your Name, Town, County and State very plainly and address all orders to

ROSE PEARL CEMENT,

For Closing the Joints in Rubber Work.

PREPARED EXPRESSLY FOR THIS PURPOSE.

The same tint as the gum. Easy to manipulate. NO WAITING TO HARDEN. Will not CRAWL, but runs in SMOOTHLY. Can go right along with packing. Does not deteriorate in vulcanizing, consequently making a cleanly plate. One ounce will hermetically seal the joints of one hundred sets of teeth. The only cement ever made EXPRESSLY for this use. Full directions with each package.

Entering a field never before occupied, "Rose Pearl Cement" has in a short time made for itself a reputation. Its phenomenal success has brought out many imitations. Accept the only genuine.

MANUFACTURED EXCLUSIVELY BY

DRS. COOK & SHEARER,

BROCKPORT, N. Y.

☞Sent anywhere for $2 per ounce, or sample, enough for fifteen cases for 30c.

One Fact

is worth more than all the mere assertions and claims for quality.

It is a fact established by the testimony of thousands of Dentists that Dawson's White Alloy is the most reliable metal filling yet known to the Dental Profession.

IMPROVED

Soft Rubber Disks, Points and Cups.

A B C D E F G H J K

DISKS, per dozen.....60 cents.

1 2 3 4 5 6 7 8 9 10 11 12

POINTS, per dozen.....40 cents.

1 2 3 4

CUPS, per dozen.....60 cents.

These Disks and Points are superior, because they clean and polish well without applying any of the powders—the powder being thoroughly incorporated in the rubber before forming or vulcanizing, thus rendering the application of powder unnecessary (though should any desire to use additional powder there is no objection.)

They are also more uniform and better made than those heretofore sold.

AMERICAN DENTAL MANUFACTURING CO.,

1298 & 1300 Broadway, New York.

"Your flexible Points and Disks are very efficient as *labor savers*. The few that I purchased from you have saved me many hours of time and much labor."

J. L. WILLIAMS, D. D. S.

"They polish very rapidly, and by their flexibility adapt themselves to the contour of the surface being polished."

DELOS PALMER, D. D. S.

"Please credit me with —— for Disks and Points, and accept my thanks for doing away with the *polishing powder nuisance*."

T. A. WADSWORTH, D. D. S.

STEEL DIES

FOR SWEDGING GOLD CAPS FOR TOOTH CROWNS.

All Dies manufactured by us are made of Steel, finished smooth and the punching surface hardened.

This set of 12 patterns (4) bicuspids and (8) molars, all well developed and characteristic teeth, selected and furnished us by Dr. Richmond.

By placing your gold on a smooth piece of lead the caps can be struck up quickly, accurately, and as stated by many, with less than one-half the work that is necessary with any other process.

Price, per set of 12.....$10 00

Price of each separately..... ... 1 00

MOUTH MIRRORS.

1. 2. 3. 4.

We have selected for our Mirrors the best quality of glasses ; thus showing clearly and distinctly the object brought before them.

The glasses are ground and fitted accurately and coated on the back with copper, so that moisture (should it reach the back) does not effect or injure the glass.

	EACH.
Plain Glass, either size, Rubber Handle, -	$1 00
Magnifying Glass, either size, Rubber Handle,	$1 25

The cut below represents our extra fine quality of Dental Tubing, which we are now prepared to furnish the Trade. We make it in all the usual lengths and cover it with Mohair or Silk, in any shade or pattern desirable. We have some new shades of Silk and Mohair woven in new designs which look very fine. Our Tubing throughout is made from the very best material obtainable and we guarantee each Tube, and any that is not satisfactory can be returned.

DENTAL FLOSS,

CHEMICALLY PURE. WAXED and PLAIN.

We very respectfully invite your attention to our superior quality of ***Dental Floss.*** We manufacture it from the same stock of Raw Silk that we do our fine Braided and Twisted Surgeons' Silk, namely: that from the ***Tsatlee,*** Region, China. The fibres of this Silk are longer and finer than can be produced by any other region or country, hence the Silk when finished is stronger, and of a finer quality, than Silk that is made from the best material that other countries can produce.

To accommodate dealers who sell our Floss, we print their name and address on label on each spool.

For Descriptive Circular and Prices, address **J. ELLWOOD LEE,** MANUFACTURER AND EXPORTER OF

FLEXIBLE TUBING AND SURGICAL INSTRUMENT SPECIALTIES,

FOR THE TRADE EXCLUSIVELY.

CONSHOHOCKEN, PA.

IT DOES NOT PAY

to experiment with Alloys when you can get one that has been so thoroughly tested and proven the best by several thousand Dentists.

New Self-Locking Dental Flask.

The above Flask is composed of ***only three seperate parts;*** the ***Bottom, Rim*** and ***Cap.*** The great advantage of this Flask over all others consists in the ***Simplicity of the locking device,*** which is merely a broad piece of stiff steel turning on a pivot, fastened to the bottom of the Flask proper, each end sliding into the groove or slots cut to receive them in the two strong side-pieces. These two side-pieces acting as guides for keeping the different parts of the Flask in proper position when flasking the teeth and clamping, previous to vulcanizing.

Dr. BEACOCK says: "This Flask was not originally gotten up for sale, but solely for my own use, and owing to its having ***given me so much satisfaction,*** I have thrown all others aside, with their loose pins, worn out bolts, threadless nuts, and their other many annoyances. And believing it would thus be appreciated by the profession generally, I think they should be obtainable."

A few remarks from one who has used them. "The ease, speed and comfort I have in using these Flasks, makes me wonder why the other kinds are used at all. All is done in less time than I could pick up the bolts or pins for the other Flasks. The saving of time alone is quite an item."

☞ When the Flask is closed with a stout clamp [as it always should be], it is ***securely locked in an instant.*** Taking everything into consideration it is the ***simplest and most practical Flask in use.***

Price for Brass, each.....**$1.75**
Price for Malleable Iron, each.....**$1.25**

DR. J. A. KIMBALL'S Non-Separable Direct Motion Disk-Carrier and Sand-paper Disks. (Patented July 26, '87.)

DR. WM H. ATKINSON is doubtless the most famous dentist in the U. S., if not in the world. Read what he says: "Dear Dr. Kimball, I am delighted with your Disk-Holder. It is *the* thing." This sentiment is echoed by many of the most prominent operators in New York, Brooklyn and Philadelphia, whose names will be cheerfully furnished if desired. Dr. Kimball's Non-Separable Disk-Carrier is the simplest, most economical and easiest to use of any in the market. Nothing to get mislaid or lost. Change of Disks rendered mere pastime. From 10 to 15 Disks can be put on and off in one minute with a little practice. The Disks are made of the best materials, under Dr. Kimball's personal direction; are extra stiff, free from curl, and warranted to give entire satisfaction. Various sizes and grades to suit all tastes.

Price of Disk-Carrier, Nickel Plated, 50 Cents.
Disks in boxes of 100 to 125, per box, 25 Cents.

Sent post-paid on receipt of price. Send check, money order or postal note. Postage stamps taken.

—FOR SALE AT—

DENTAL DEPOTS and by Dr. J. ALBERT KIMBALL,

28 West 26th Street, N. Y. City.

Send for descriptive circular containing testimonials, etc.

STEURER'S PLASTIC GOLD.

We would like to call your attention to a new form of Dental Gold that we have introduced to the profession under the name of "STEURER'S PLASTIC GOLD," which has successfully withstood all the tests at the clinics as well as in private practice for the past two years.

It is chemically pure Gold in a plastic state, without admixture of any foreign substance, of a brown color and homogeneous appearance.

We claim the following advantages over all other forms of Gold heretofore used:

1st. It is more cohesive.

2nd. It has a *spreading quality* before it is completely condensed, so that it will adapt itself perfectly to the walls of any cavity.

3rd. A tooth can be filled in one-third of the time it takes with any other Gold, simple hand pressure being sufficient to make a solid filling, the mallet (which is so disagreeable to most patients) can be dispensed with, and so sensitive teeth, or those whose walls are frail, can be easily filled.

4th. No retaining points are needed—simple undercuts are sufficient—so that very often the natural cavity, after the decay has been removed, has sufficient undercut to retain this form of Gold.

5th. Being absolutely pure Gold, it retains its color.

Beware of worthless imitations. Be careful to see that it is in the shape of small square pieces, packed in bottles, and labeled *Steurer's Plastic Gold*, because the imitations, although they may apparently work tolerable in the commencement, do not make a solid filling, but gradually crumble away.

Price Per Bottle 1-16 oz., $2.50. Cash with all Orders.

Dr. J. A. STEURER,

114 West 19th Street, New York City.

A NEW DISCOVERY.

Far Superior to Liquid Nitrous Oxide.

The Vegetable Anæsthetic.

It is without any of the objectionable features peculiar to other Anæsthetics; on the contrary it builds up the tissues, quickens the circulation and adds oxygen to the system.

The properties of the herbs from which it is manufactured are hypnotic, diaphoretic, stimulative and antispasmadic. The patient awakens from the sleep refreshed and cheerful, and reports the sensations and effects as most agreeable.

It is given to the youngest children, the most sensitive persons, as well as the aged and enfeebled, and no injury has resulted, nor, in the nature of the anæsthetic, can result from its inhalation by persons having a tendency to heart and lung diseases.

THE VEGETABLE ANÆSTHETIC has reached an unprecedented success since its introduction, and promises an entire revolution in modern dentistry and surgery.

For sale by the manufacturers (owners of Mayo's patent) in 100, 200 and 500 gallon cylinders.

***The fourth edition of our pamphlet, with testimonials from prominent physicians, surgeons and the press is now ready, and copies can be had by applying to

THE BOSTON VEGETABLE ANÆSTHETIC COMPANY,

15 HARVARD PLACE, BOSTON, MASS.

N. B.—Messrs. B. L. Knapp & Co., and Johnson & Lund, are not our Agents, and do not have our vapor to sell. They have not been our Agents for the past two years. Our Agents are

AGENTS SOLICITED.

DR. U. K. MAYO:

DEAR SIR:—Should have an unlimited use by the entire medical profession.

H. HUTCHENS, M. D., Boston.

I consider this Anæsthetic the safest the world has yet seen.

WM. H. THORNDYKE, M. D.,92 Boylston St., Boston.

I wish to express to you the satisfaction afforded me by your administration of Vegetable Anæsthetic in the case of the infant seven months old upon which I operated at your office yesterday, although it occupied over fifteen minutes you kept the child insensible to pain with the advantage of perfect safety and entire absence of disagreeable after-effects.

L. A. PHILLIPS, M. D , Boston.

DR. U. K. MAYO,

DEAR SIR:—It is the best and safest Anæsthetic; valuable in some forms of disease. I have proved this in last four years, after a practice of forty years in my profession.

O. H. WELLINGTON, M D.

We have used the Vegetable Anæsthetic over a year exclusively in our practice, both for the extraction of teeth and minor surgical operations, repeatedly in heart disease, severe lung diseases, Bright's disease, etc . etc., where patients were so feeble as to require assistance in walking, many of them under medical treatment. and the results have been all we could ask. No irritation, suffocation, nor depression. We heartily recommend it to all as the anæsthetic of the age.

GOLD CYLINDERS.

Two Patents Sept. 19, 1876. Patent Sept. 25, 1876. Patent April 17. 1877.

Style A, Flattened.

Nos. ¼ ½ 1 1½ 2

Style A.

Loose, and can be used as Pellets.

Nos. ½ 1 1½ 2 3

Style B.

Loose, but more compact than Style A.

Nos. 1 2 3 4

Style C.

Compact, but not Hard, used as Cylinders only.

Nos. 2 3 4 5 6

STYLE A, FLATTENED,
Is the form most generally used.

We also make Style C in tin and gold. In making them a sheet of No. 4 gold and tin are rolled together, the gold on the outside. The same numbers are made as the Style C gold cylinder.

These numbers are to denote that No. ½ is a half sheet of No. 4 Gold Foil cut into strips and rolled into cylinders. No. 1, one sheet; No. 1½, one sheet and a half; No. 2, two sheets, &c.

Price, per 1-8 ounce ..... $1.00 | Price, per 1 ounce $8.00
" " 1-2 " ..... 15.00 | In lots of 2 ounces or more, per ounce 29.00

HOOD & REYNOLDS'

IMPROVED ROCKING ENGINE.

The standard, which is tubing nickel plated, is held in position by the spring, *A*. This spring is made from piano wire, and gives the standard the most delicate rocking motion of any engine in the market. The standard can be set back by loosening screws at *L*, and pulling spring through slots. To set forward push spring back. The wheel is kept off centre by spring, *M*. To tighten spring screw up at the base.

The standard setting back allows the operator to place the engine nearer the patient. The spring, *B*, acts as a balance to the arm, *C*, which is covered its entire length with tubing, and therefore is protected at every point from the pulley wheel to hand-piece.

To lower the arm, raise the arm out of wheel, *D*. This spring is flexible, and can be bent so as to have the arm stand in any position. To tighten belt loosen screw, *E*, and raise top of standard at *F*. The small set screw, *G*, secures the pulley to the arm. Should the inside wire of arm get worn to take up lost motion, loosen screw at *G*, and pull the wire through a trifle.

H is a handle that is for two purposes. One to carry the engine, and the other to turn the wheel in three different positions. To turn the wheel, press spring, *I*, with foot and turn to the right. The wheel is held in three positions by slots engaged with spring, *I*. The turning of the wheel allows the operator to get into different positions without changing the position of his foot.

The hand-piece, *J*, is connected by a covered flexible spring, *K*.

Price, as shown in Cut, with Fourteen Instruments, - - $40.00

Boxing, - - - 75c.

Success.

Our success is largely due to our improving the quality of *Dental Instruments* without increasing the price.

We do not say it boastingly, but, with considerable pride, that in the manufacture of *Instruments* we *take the lead.*

It is not a mere assertion of ours that we *make the best*, but it is the *evidence* of men long in practice, who have used all the different makes of Instruments.

DR. J. L. WILLIAMS, says:—"Your Steel goods are in my opinion the most beautiful in form and correct in workmanship that I have ever examined."

DR. J. W. CLOWES, says:—"For several years I have purchased many Instruments from the American Dental Manufacturing Co., and have found them especially excellent in the quality of their temper."

And thus we could add pages; but we would say *use them* and be convinced practically as others have been.

Money invested in inferior instruments is wasted, thus *save money* by purchasing *the best.*

☞Ask *your dealer* for *Instruments* manufactnred by the

AMERICAN DENTAL MANUFACTURING CO.,

1298 & 1300 BROADWAY, NEW YORK, N. Y.

PORCELAIN TEETH.

Beginning at Vienna, in 1873, *where I made my first display, I have received successively at the Six World's Fairs the* ***Highest Award for ARTIFICIAL TEETH;*** *this being the most important branch of my business and all that I exhibited.*

The greatest proof ever extended for Superiority to any manufacturer of ***PORCELAIN TEETH,*** *for their Strength, Adaptation and Natural Life-like Appearance, was received by me through the Report of the Judges; Centennial International Exhibition,* 1876.

EXTRACT

FROM THE GENERAL REPORT OF THE JUDGES ON AWARDS OF GROUP XXIV.

"H. D. Justi ***exhibited nothing but teeth,*** *but his display was beautiful in the extreme. In color, translucency and texture, they were all that could be desired. They were a faithful reproduction of the physiological characteristics of the natural organs, both to the individual teeth and relatively to the entire set. Their conformation with reference to close and easy adaptation to the maxillary arch showed careful study of the needs of both patient and operator. Their various and numerous deviations from uniformity of arch and outline, simulating the irregularities of nature, was so perfect that when in the mouth no suspicion of their artificial nature would be entertained. The disposition of tooth-material was so skillfully managed as to secure the greatest amount of strength with the least bulk, and the insertion of platinum pins was so arranged as to render their displacement an almost impossible accident."*
